

BUSINESS INTELLIGENCE

For Data Science & Visualization Certificate

Artificial Intelligence and Machine Learning are two of the most talked-about topics in the country today. If you're looking to start your journey towards a high-paying job in this field, look no further than Emory Continuing Education's Business Intelligence program. Our graduates have reaped the benefits of their training at Emory, one of the most trusted names in the nation. Don't just take our word for it—check out our website for testimonials from our successful graduates.

Certificate highlights

Organizations today encounter massive amounts of data, and they need to make sense of it to improve their business. In our program, you'll learn how to review massive amounts of data, understand the details, and identify problems and opportunities for the organization. For example, you'll learn how to reduce their cost structure, optimize their processes, increase their revenue, identify which items sell well and which ones don't, and determine their best and worst sellers. You'll do this through data visualization and storytelling—**skills that will make you unstoppable.**

Duration 11 weeks

Cost \$4,995

Time commitment 100 hours

Discover a new you in just 11 Saturdays!

Through engaging coursework and live online instructor-led sessions, students gain the knowledge to:
