

# WOMEN IN LEADERSHIP

The Women in Leadership: Driving Transformation Through Innovation and Resilience Certificate teaches women managers how to maximize their unique strengths to become stronger leaders. The five-week program includes five learning modules, each led by a female subject matter expert with expertise in the areas of innovation, cultural awareness, engagement, resilience, or self-advocacy.

## Certificate overview

This program is designed for women managers who are ready to build the skill set needed to reach higher levels of leadership, including C-suite positions. The combination of live sessions and self-paced content gives women leaders the flexibility to earn the certificate while balancing work commitments and empowering them to build presence and influence within their organizations.

## Industry expert panel events

Twice a year, current students and graduates of the Women in Leadership program are also invited to attend a two-hour live, virtual discussion with a panel of industry experts.

**Duration** 5 weeks

**Cost** \$1,950

**Time commitment** 40 hours

## Certificate highlights

Identify collaboration strategies in your organization, design ways to engage across silos, and formulate useful ideation strategies.

Develop an initial plan to encourage risk while mitigating challenges.

Explore differences and similarities of cultures and how they impact communication, innovation, and team leadership, and develop a strategy of inclusiveness through an understanding of cultural impacts.

Distinguish between resilient and non-resilient leaders, design a custom resiliency plan, and implement resiliency for innovation.
