Explore the ways in which the Holocaust continues to affect our generation and colors what it means to live today. The Holocaust forces us to grapple with the existence of evil and suffering. It challenges us to find faith and optimism in the face of devastation and despair. And it humbles us as we encounter heroes of the spirit who fought for truth and decency in the darkest of times. Learn what the Holocaust teaches us about G-d, humanity, meaning, hope, and purpose. **Supply fee:** $21.50 (covers book).
*Rabbi Sollish is the founder and director of the Intown Jewish Academy in Atlanta.*

**American History, Part II: American Revolution and Declaration of Independence**
Instructor: Sal DePasquale, MCJ, MBA, Vietnam Veteran
The so-called Founding Fathers were anything but a cohesive group with a common agenda. This class will examine the stark disparity between the colonies and the conflicting worldviews that joined in forming a nation-state. This was not a gathering of visionaries creating a land of freedom and justice, but instead more of two opposing magnets forced into a package that was certain to explode. Suggested reading: *Revolutionaries: A New History of the Invention of America* (Rakove); *Inhuman Bondage: The Rise and Fall of Slavery in the New World* (Davis); and *Slave Nation: How Slavery United the Colonies & Sparked the American Revolution* (Blumrosen).
*Sal has a strong focus in history to identify the underlying roots of contemporary conflict.*

Several little-known social media platforms can help yield surprising results. This course will cover 8 sessions (two per week for 4 weeks). **Art History Part III: Middle Ages Gothic Period**
Instructor: Marilyn Morton, BS Art Education; PhD Interdisciplinary Studies
Gothic was originally a negative term implying primitive origins, but by the 13th and 14th centuries, had become the opus modernum (modern work) of western Europe. We will review the stunning architecture with its associated sculpture, as well as book illumination and other privately commissioned luxury objects in the region -- including the Neo-Byzantine version of Gothic in Italy. These changed the demographics of Europe and Anglo-Saxon England, and triggered a new type of fire-resistant building construction: Romanesque. Art History Part II not a prerequisite.

**Introduction to Behavioral Economics**
Instructor: Shai Robkin, BA Economics, MBA Marketing
5 Sessions: July 12 - Aug 9
The course introduces students to key concepts designed to help people and organizations make better decisions and avoid common pitfalls resulting from instinctive human behaviors. While classical economic theory assumes that people make rational decisions -- weighing costs and benefits in order to optimize the likelihood of achieving desired outcomes -- behavioral economists start by asking how humans actually behave in the real world. The course covers basic theories of evolutionary psychology, automatic vs. controlled thinking, heuristics (simple procedures that people use unconsciously to reach decisions on difficult questions), prospect theory and inaccurate perceptions of risk, the role of chance, public policy and choice architecture, and when and when not to trust experts.

Shai (pronounced “Shy”) Robkin is a serial entrepreneur who was born and raised in Atlanta. He moved to Israel in 1976, where he and his wife opened in 1981 Israel’s first combination bookstore/coffee shop.

**The Art and Lives of the Classic Broadway Lyricists: Love and Laughter**
William Allen, MA, MPhil, MLn; Technical assistance: Michiyo Allen, BS

This latest entry in our series on the Art of the Classic Broadway Lyricists (1900-1965) centers on the lyrics in the variety of love songs and comedy and satirical songs found in a certain strain of mid-century musical comedies with lyrics by Lee Adams (*Bye Bye Birdie, All American*) and Carolyn Leigh (*Wildcat, Little Me*), lyrical teams Comden & Green (*On the Town, Wonderful Town, Bells Are Ringing*) and Adler & Ross (*Pajama Game, Damn Yankees*), lyricist-composers Meredith Willson (*The Music Man*) and Jerry Herman (*Hello Dolly, Mame)*. Through the use of relevant recordings and audio-visual materials, we will address not only the romantic and comedic aspects of these songs but also how they reflect the technical 4 R’s of the lyrical art -- rhyme, rhythm, repetition, reason. Come watch, listen, learn and enjoy.

*Bill wrote a 500 page dissertation on British lyricist and librettist W. S. Gilbert (Gilbert & Sullivan) to obtain his advanced degree from the University of London.*
